## The Upper and Lower Falls Trails

Approximately 2.5 miles round trip, this beautiful hike has points of interest including two natural waterfalls, a restored cabin, a river powered water wheel, and a reproduction of a mountain still. This trail is rated as easy to moderate but has a natural ruggedness. Start your hike on the walking trail near the west side of the parking

area (nearest the parking entrance). Following your visit to the Upper Falls, return via the Jeep trail. To shorten your hike to under two miles, begin your return after visiting the Lower Falls. For experienced hikers who wish to extend their hike, proceed from the Upper Falls to the Nancy Womack Trail (see Trails Brochure for map).
